RescueOurSchools (https://www.facebook.com/RescueOurSchools/)

Rescue Our Schools is an independent campaign group set up by parents for anyone who cares about state education and wants to keep it in the community. We oppose:

- forced academisation of schools for no good reason
- handing school land to remote private trusts for 125 years
- banning of elected parent governors and weakening local education authorities' role in schools
- unqualified teachers using mass produced lesson material made by big business
- endless tests which damage our children's mental health
- changes to pupil funding which will mean huge cuts in inner city schools

If you would like to support our campaign please fill in the sheet below.

Name	School	Email	Mobile Number

Thank you for rescuing your school!
